User/Installer Responsibilities						
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine(s)/propeller(s)/article(s). Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

Release Comments:

All claims for damages incurred during shipping must be made against carriers and insurance companies. STS Component Solutions must be notified of any shortages within 5 (five) days of receipt of material. Any parts purchased for resale outside of the US must be shipped only in accordance with US export laws and regulations, and is the responsibility of the Buyer and the Buyers agents. Buyer and Buyers agents are not to site STS Component Solutions as exporter on any export documents without prior written consent. This material is intended for civilian aircraft only. These commodities, technology, and/or software were exported from the United States in accordance with the Export Administration Regulations. Diversion contrary to United States Law is strictly prohibited.

Certificate of Conformance

We certify that the products covered by this packing list/invoice have been produced in accordance with the Fair Labor Standards Act of 1938, as amended.

We certify that the materials and processes utilized in manufacturing these products meet applicable industry and governmental specifications or standards in accordance with the order of precedence set forth in ML-STD 970.
Unless otherwise stated on this page, Country of Origin is U.S.A.

We certify that the processes and finished products were controlled and tested in accordance with the applicable purchase order and that specified test records are on file subject to examination upon request.

1. FAA-except parts returned for repair:

We certify that the parts listed on this packing list/invoice have been carefully inspected in accordance with FAA and/or Military Standards and have been found to be in new and unused condition, manufactured from material meeting industry standards and otherwise comply with the requirements of the contract.

2. INSPECTION-except parts returned for repair:

We certify that the parts listed on this packing list/invoice have been inspected in accordance with applicable standards and have been found to be in new and unused condition, manufactured from material meeting industry standards and otherwise comply with the requirements of the contract.

3. WARRANTY/REWORK-when applicable:

We certify that the parts listed on this packing list/invoice have been inspected and are in accordance with applicable standards and have been found to be in compliance with the applicable specifications.

4. REPAIRED PARTS:

We certify that the parts listed on this packing list have been inspected for and repaired to remedy the conditions noted on the referenced purchase order. Product performance and attributes which are beyond the scope referenced in the purchase order have not been examined or modified and remain in the same condition as received by Korry Electronics Company.
