AUTHORISED RELEASE CERTIFICATE - EASA FORM 1  
Note: 1. It is important to understand that the existence of the Document alone does not automatically constitute authority to install the part/component/assembly  
2. Where the user/ installer works in accordance with the national regulations of an Approved Airworthiness Authority different from the Airworthiness Authority specified in block 1, it is essential that the user/ installer ensures that the Airworthiness Authority specified in block 1, is also approved by the national regulations of the user/ installer before the aircraft may be flown  
3. Statements 14 & 19 do not constitute installation certification in full. It is the user's responsibility to ensure that the aircraft is maintained in accordance with the national regulations by the user/ installer before the aircraft may be flown
