15. Authorized Signature: 	16. Approval / Authorization No.: DE.21G.0046	20. Authorized Signature: 	21. Approval / Certificate No.:
17. Name (Typed or Printed): Mirabile	18. Date (dd.mm.yy): 25.SEP.2006	22. Name (Typed or Printed): 	23. Date (dd.mm.yy):

User / Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.

Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
