12. REMARKS:

The work on teardown R120484 and block 11 has been in accordance with CMM 25-20-26 Rev. 5 dtd 5/27/10, and the component is considered to be airworthy. Full details of the work performed are held on the work order ref. below.

The work specified on blocks 11 and 12 were carried out on work order number R120484

Adams Rite Aerospace certifies that the work specified in Block 11/12 was carried out in accordance with EASA part 145 and in respect to that work the component is considered ready for release to service under EASA Part-145 Approval Number: EASA 145.4016. All repair design data developed by Adams Rite Aerospace for use on an EU-Registered aircraft and related articles are approved by ED Decision 2004/04/CF, as amended by ED Decision 2007/001/C.

13a. Certifies the items identified above were manufactured in conformity to:	14a. ☒ 14 CFR 43.9 Return to Service ☒ Other regulation specified in Block 12
☐ Approved design data and are in a condition for safe operation. ☐ Non-approved design data specified in Block 12.	Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.

User/Installer Responsibilities.

It is important to understand that the existence of this Document alone does not automatically constitute authority to install the aircraft engine/propeller/article.

Where the user /installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statements in Blocks13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain and installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
