### Revised AIRBUS Certificate of Conformity:

Dear valued customer,

this is to inform you that Airbus has decided to modify the content of our Certificate of Conformity in order to cope with upcoming business developments and market requirements. The layout of the Airbus Certificate of Conformity template however will remain the same.

Contrary to the regulation for the completion of an airworthiness release certificate, there are no binding rules, established by the Aviation Authorities, regarding design and the content of a Certificate of Conformity.

Along with a new numbering of the blocks, the changes are in detail:

Block No. 1 = Dispatching Entity instead of Country  
Block No. 4 = the address of AIRBUS headquarter only  
Block No. 10 = Serial Number only  
Block No. 11 = the header STATUS/WORK remains unchanged, but this block will be filled in with "N/A" only. The status of the part is reflected through entries and signature either in block 13a-d (= NEW) or in the block 14a-d (= USED).

In case of question, please do not hesitate to contact us.

Best regards,

Wolfgang KOOP
