User/Installer Responsibilities					
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

If AAR fails to furnish Buyer with such instructions, Buyer will return any non-conforming Part to AAR at AAR's expense in accordance with commercially reasonable practices, subject to confirmation of the non-conforming status by AAR. AAR will, within a reasonable period of time after notice of rejection and non-conforming status, ship conforming Parts to replace any non-conforming Parts unless Buyer cancels its Order with respect to such non-conforming Parts, in which case a full credit will be given Buyer of any payments made to AAR for the non-conforming Part cancelled. If a Part is non-conforming and Buyer fails to return it to AAR or notify AAR of the non-conformance within said ten (10) day period, then it will be conclusively deemed for all purposes that the Part conforms in all respects.

Convention on Contracts for the International Sale of Goods, the rights and obligations of the parties shall not be governed by such Convention, but shall be governed by the law of the State of Illinois.

11. Modification No modification of these terms and conditions shall be binding upon the parties hereto unless in writing signed by both parties hereto.
