User / Installer Responsibilities:

1. It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assemblies.
2. Where the user/installer works in accordance with the national regulations of an Airworthiness Authority different from the Airworthiness Authority specified in block 1, the aircraft maintenance record must contain an installation certification issued in accordance with national regulations by the user/installer.
3. Airworthiness Authority accepts part/component/assemblies from the Airworthiness Authority specified in block 1 it is essential that the user/installer ensures that the statements 14 and 19 do not constitute installation certification. In all cases, the aircraft maintenance record must contain an installation certification issued in accordance with national regulations by the user/installer.
