| It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown. |                        |                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                   |                  |

## Tear Down/Inspection

Work Order #: 332912

Date Printed: 3/29/2022

Page: 1

### Customer:

ATTN: Elliot Mitchell  
AJ WALTER AVIATION LIMITED  
The Headquarters  
Maydwell Avenue  
Slinfold, West Sussex, UK RH13 0AS  
UNITED KINGDOM

### Ship To:

AJ WALTER AVIATION LIMITED  
The Headquarters  
Maydwell Avenue  
Slinfold, West Sussex, , RH130AS UNITED  
KINGDOM

**Part Number:** 233N3223-1042

**Description:** Engine Start/RAT Panel

**Serial Number:** F01206

**Customer R/O:** R392816

### Symptoms:

#### Customer Request

Work Requested: REPAIR  
Discrepancy/Reason for Removal: RIGHT ENGINE IGNITION SYS#2 FAULT TO LIGHT UP  
Note: N/A

### Faults:

#### Preliminary Inspection

Verified P/N as 233N3223-1042 IAW BAE Systems CMM 31-12-01, Revision 31, Revision Date 23/Sep/2010.  
Verified S/N as F01206 IAW ID plate and customer's repair order.  
Visual Inspection: Unit Dirty.  
TSN: UNK CSN: UNK  
TSO: UNK CSO: UNK  
Unit came with the following extra parts attached: Light plate and knobs.

#### Pre-test

Unit failed functional test, tested IAW BAE Systems CMM 31-12-01, Revision 31, Revision Date 23/Sep/2010.  
Reason: S4 no continuity in GND position.  
Customer complaint verified: N/A.

#### Hidden Damages

N/A

#### Teardown Findings

Unit partially disassembled to the extent necessary to perform repair.  
Cleaned and inspected IAW BAE Systems CMM 31-12-01, Revision 31, Revision Date 23/Sep/2010.  
The following parts require replacement: Switch rotary (S4).  
The following parts require services/rework: N/A.  
Condition for the following parts will be determined on final test: N/A.  
AJ Walter Aviation Limited has no specialized work instructions.  
\*\* Repair Estimate \*\*

#### AD & SB Status

Unit will comply with AD 2008-02-14.

#### Corrective Actions:

##### Corrective Action

Replaced parts and performed services listed under teardown findings.  
Unit assembled and final tested.
