## USER/INSTALLER RESPONSIBILITIES

This certificate does not automatically constitute authority to install the item(s).  
Where the user/installer performs work in accordance with regulations of an airworthiness authority different than the airworthiness authority specified in block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts items from the airworthiness authority specified in block 1.

Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

### Workscope Overview:

UNIT SUPPLIED FOR TEST

Technical Reference: BLW4915 ATA 29-09-05 - Issue No: N/A - Rev No: 6

### Inspection Findings:

The switch has failed test requiring replacement of the electrical connector. It was not possible to fully test the switch so this is a provisional quote subject to the final test being satisfactory

Repaired and tested iaw Eaton man ref 29-09-05 rev 6 dated Dec 2016
