6. Item:	7. Description:	8. Part Number:	9. Quantity:	10. Serial Number:	11. Status/Work:
10	PCU ASSY	700-2326-003	1	44GMY1	NEW
12. Remarks: Export Airworthiness Approval: This article meets the special requirements of UNITED KINGDOM. The PMA part is not a critical component.					
13a. Certifies the items identified above were manufactured in conformity to: ☒ Approved design data and are in condition for safe operation. ☐ Non-approved design data specified in Block 12.					
13b. Authorized Signature: 		13c. Approval/Authorization No.: ODA-606445-NM		14a. ☐ 14 CFR 43.9 Return to Service ☐ Other regulation specified in Block 12 Certifies that unless otherwise specified in block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.	
13d. Name (Typed or Printed): AARON CASTRO		13e. Date: dd/mm/yyyy 16 FEB 2016		14b. Authorized Signature:	
				14c. Approval/Certificate No.:	
				14d. Name (Typed or Printed)	
				14e. Date: dd/mm/yyyy	
User/Installer Responsibilities					
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
