User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority where the user/installer performs work in accordance with the national regulations of an airworthiness authority and it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assembly. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records national regulations by the user/installer before the aircraft may be flown.
