#### CERTIFICATION OF CONFORMANCE AND AFFIDAVIT

1. Seller hereby certifies that the raw materials used in the performance of this contract meet the chemical and physical requirements of applicable material and/or procurement specifications.
2. Seller further certifies that metallurgical examinations and physical tests of finished product when required by contract, are reported. Metallurgical and physical test reports are on file and available for examination by customer.
3. For actual individual physical and chemical test results, identifiable by part number, inspection lot number and material supplier's heat number for the inspection lot from which shipment was made, refer to seller's certified test report, if applicable.
4. Seller further certifies that dimensional fluorescent penetrant or magnetic particle inspections have been performed as required by applicable drawings and/or specification requirements. Records of such inspections are available upon request.
