CERTIFICATE OF COMPLIANCE

TO: KLX AEROSPACE
PO#: IP03902 SO#: 579871781
DATE: 1-25-19 QTY: 1,500 COO: CN

This certifies that LEDVANCE produced the following lamps:

<u>NAED</u>	<u>Description</u>
21874	FBO24/830

These lamps are produced according to the specifications documented within LEDVANCE quality guidelines for their physical and operational specifications.

The quality of the lamps is controlled continuously through production and packaging by our quality inspection department according to the latest methods of statistical quality control.

All finished product testing is conducted according to IES test specifications. Furthermore, the finished product conforms to ANSI C78.81 specification regarding electrical and dimensional characteristics.

Inspections and/or test reports and records of calibration of inspection and/or test equipment are on file in our plant for review by your quality assurance representative and copies shall be made available upon request.
