17. Name (typed or printed): MARIE E VINAJA		18. Date: NOV/25/2009		22. Name (typed or printed):		23. Date: 6
User / Installer Responsibilities It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.						

FAA Form 8130-3 (6-01) *Installer must cross-check eligibility with applicable technical data

Certificate of Conformance

We certify that all materials, processes, parts and/or assemblies shipped herewith conform to specifications as called out in the above purchase order and associated documents, and have been approved, whenever necessary, by cognizant customer representatives and government agencies. We further certify that the chemical and/or physical test data covering the material and/or processes used in these parts and/or assemblies are in our files and are subject to your examination. To the best of our knowledge, the parts are free of mercury. Western Filter accepts no consequential damages for goods and/or services provided.
