 14 CFR 43.9 Return to Service
 Certifies that unless otherwise specified in Block 13, the work identified in Block 12, and described in Block 13 was accomplished in accordance with Title 14 Code of Federal Regulations, part 43 and in respect to that work the items are approved for return to service.

20.**Authorized Signature:****21. Approval/Certificate No.:****22. Name (Typed or Printed):****23. Date (m/d/y):****User/Installer Responsibilities**

It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

*Installer must cross-check eligibility with applicable technical data

*Installer must cross-check eligibility with applicable technical data
