User/Installer Responsibilities					
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/ propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

Subject: Notification of CAAC Special Approval

Dear Sir or Madam,

Based on CCAR145 regulation, audit team suggestion and your application for renewal approval from CAAC, the purpose of this letter is to formally inform you that CAAC agree your company continuing to provide maintenance work for Chinese customer with your present CAAC Maintenance Organization Certificate (number F00100399) which should be expired on June 31, 2021. This temporary approval is valid until you have received any other formal approval issued by CAAC or before the day December 31, 2021, which comes earlier. Your company may release Component after the maintenance work finished during this period by this Special Approval, and the working scope is limited to the Rating specified on the MOC and latest Maintenance Capability List approved by CAAC.

The copy of this letter shall be attached with the releasing document.

Yours Sincerely,

LI Heping
Director

Continuous Airworthiness & Maintenance Division
Flight Standard Department of Civil Aviation Administration of China (CAAC)
