THESE ARTICLES ARE NOT A CRITICAL COMPONENT

13. a. Certifies the items identified above were manufactured in accordance with:

- ☒ Approved design data and are in a condition for safe operation
☐ Non-approved design data specified in Block 12

14a. ☒ 14 CFR 43.9 Return to Service ☐ Other regulation specified in Block 12

Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, code of Federal Regulations, part 43 and in respect of that work, the items are approved for return to service.

13b. Authorized Signature 	13c. Approval Authorization No. DARF-405166-CE	14b. Authorized Signature	14c. Approval Certificate No.
13d. Name (Typed) Emmet M. Skroch	13d. Date (dd/mm/yyyy) 17/MAR/2014	14d. Name (Typed or Printed)	14e. Date (dd/mm/yyyy)

User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine propeller article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s) propeller(s) from the airworthiness authority of the country specified in Block 1.

Statements in block 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
