User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1,

that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

FAA Form 8130-3 (02-14)

*Installer must cross-check eligibility with applicable technical data.

NSN: 0052-00-012-9005

Reproduction, Reduction, Act Statement:
An agency may not contact or sponsor, and a person is not required to respond to, a collector of information unless it displays a currently valid OMB control number assigned pursuant to 5 U.S.C. 552a-26.
Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the OMB at: OMB Information Collection Clearance Office, Attn: 3045-0042.
